

Objective

AAA aims to provide exposure to Australian cash deposits, with attractive monthly income distributions that exceed the 30 day Bank Bill Swap Rate (BBSW) (after fees and expenses).

Assets are invested in deposit accounts held with selected banks in Australia.

Benefits

Attractive income paid monthly

Generate attractive income on cash deposits with income paid monthly at a rate competitive with 'at call' bank deposits and term deposits.

Convenient and liquid

There is no need to open a bank account, lock your funds away in a term deposit, or seek out 'honeymoon' rates.

Simple structure

AAA owns nothing other than cash deposits with major banks, providing high levels of capital stability and security.

Risk mitigation

Unlike bonds (or bond ETFs), capital value will not decline in a rising interest rate environment.

Fund returns are calculated in A\$ using net asset value per unit at the start and end of the specified period and do not reflect the brokerage or bid-ask spread that investors may incur when buying and selling units on the ASX. Returns are after fund management costs, assume reinvestment of any distributions and do not take into account income tax.

The daily interest rate earned on the fund's bank deposits is available on the Betashares website and is subject to change.
