

# Betashares Western Asset Australian Bond Fund (managed fund)

 **ASX: BNDS**

29 November 2024

## Objective

BNDS invests in an actively managed, diversified portfolio of Australian bonds and aims to outperform the Bloomberg AusBond Composite Index (Benchmark) over rolling three-year periods.

BNDS is managed by Western Asset, a leading fixed income manager and member of the Franklin Templeton Group.

## Benefits

### Core fixed income solution

BNDS invests in a broad portfolio of Australian fixed income securities and is designed to be a 'one stop' core fixed income solution.

### Attractive income paid monthly

Income is paid monthly at a rate that aims to be higher than cash and term deposits.

### Defensive characteristics

Australian bonds historically have tended to rise in value when Australian shares have fallen.

### Professional active management

Experienced investment management team actively manages the portfolio with the objective of outperforming its benchmark.

Modified duration (yrs) <sup>5</sup>	5.19
Average credit rating <sup>6</sup>	AA

1 Average coupon yield of the bonds in the portfolio (weighted by market value). Subject to change over time as interest rates and constituents change.

2 The annualised total expected return of a portfolio if underlying bonds are held to maturity and does not default, and the coupons are reinvested. Assumes no change in interest rates. Subject to change over time.

3 The annualised total expected return of a portfolio if underlying bonds are held to maturity or are called, does not default, and the coupons are reinvested. Yield to Worst is the lower of either Yield to Maturity or Yield to Call. Assumes no change in interest rates. Subject to change over time.

4 Average length of time until the current bonds in the portfolio mature (weighted by market value).

5 A measure of the sensitivity of the portfolio's value to a change in interest rates, e.g. modified duration of 6 years implies a 1% rise in the reference interest rate will reduce portfolio value by 6.00%.

6 Average credit rating for the bonds in the portfolio. Credit ratings are opinions only and are not to be used as a basis for assessing investment merit. Ratings are subject to change.

## Monthly commentary

### What happened in the market?

The Fund was up 1.18% for the month of November. Outperformance during November was largely attributable to the portfolio's small long relative duration position, which outperformed as yields declined across the curve during the month. The portfolio's large overweight corporate bond allocation also outperformed via a combination of spread compression and carry. Security selection detracted at the margin.
