

Betashares Australian Sustainability Leaders ETF

29 November 2024

Objective

FAIR provides 'true-to-label' ethically screened exposure to Australian shares. FAIR aims to track the performance of an index (before fees and expenses) that includes Australian companies that have passed screens to exclude companies with direct or significant exposure to fossil fuels or engaged in activities deemed inconsistent with responsible investment considerations.

The Fund's methodology also preferences companies classified as "Sustainability Leaders" based on their involvement in sustainable business activities.

Benefits

Align your investments with your values

Invest in a way that is consistent with your ethical standards.

True-to-label

FAIR's investment methodology consists of stringent screening criteria, offering investors a true to label ethical investment solution.

Diversified exposure

FAIR does not invest in any of the "Big 4 Banks", or large Australian mining companies. In one simple ASX trade, investors gain exposure to a diversified portfolio of ethical Australian companies.
