## Objective

FUEL aims to track the performance of an index (before fees and expenses) that comprises the largest global energy companies (ex-Australia), hedged into Australian dollars.

### Convenient access to global energy companies

Invest in a portfolio of the world's largest energy companies, including Chevron, ExxonMobil and Royal Dutch Shell, in one ASX trade.

### Diversified energy exposure

FUEL offers exposure to energy companies that are larger, more geographically diversified, and more vertically integrated than Australian-listed energy companies.

### Cost-effective

Passive, index-tracking approach means no 'active manager' fees.
