

Betashares Australian Dividend Harvester Fund (managed fund)

 **ASX: HVST**

29 November 2024

Objective

HVST aims to provide franked income that exceeds the net income yield of the Australian broad sharemarket on an annual basis, along with exposure to a diversified portfolio of Australian shares. HVST does not aim to track an index.

Benefits

Opportunity for high, tax-effective monthly income

HVST's income stream aims to exceed the net income yield of the broad Australian sharemarket on an annual basis, paid monthly.

Designed for investors seeking income

HVST was specifically created to help meet the challenges facing investors for whom income is a high priority, such as SMSF and retiree investors.

Diversified exposure to Australian Equities

HVST provides exposure to a diversified portfolio of Australian shares.

Value of \$100 invested since inception

Source: Betashares, Bloomberg. Past performance is not indicative of future performance.

Fund returns are calculated in A\$ using net asset value per unit at the start and end of the specified period and do not reflect the brokerage or bid-ask spread that investors may incur when buying and selling units on the ASX. Returns are after fund management costs, assume reinvestment of any distributions and do not take into account income tax.

*Prior to 1 June 2022, the Fund traded under a different investment strategy, and was subject to different management costs. Information about the Fund's performance prior to the current strategy inception date is available on request by emailing info@betashares.com.au or calling 1300 487 577

Betashares Australian Dividend Harvester Fund (Managed Fund)

 **ASX: HVST**

29 November 2024

Sector allocation

Top 10 exposures

COMPANY	WEIGHTING
Commonwealth Bank	15.0%
CSL	6.1%
BHP	6.1%
Wesfarmers	4.9%
Transurban Group	3.7%
National Australia Bank	3.6%
Westpac Bank	3.5%
Fortescue Metals Group	3.3%
Telstra Corp	3.2%
Goodman Group	2.9%

Distributions

12 mth distribution yield (%)	5.8%
12 mth gross distribution yield (%)	7.6%
Franking level (%)	72.8%

Yield is calculated by summing the prior 12-month net or gross per unit distributions divided by the closing NAV per unit at the end of the relevant period. Franking level is total franking level over the last 12 months. Not all Australian investors will be able to receive the full value of franking credits. Yield will vary and may be lower at time of investment. **Past performance is not indicative of future performance.**

Strategy

HVST follows a rules-based 'dividend harvest' strategy, which seeks to maximise HVST's exposure to dividend-paying Australian shares (Securities Portfolio).

The Securities Portfolio is generally selected from among the largest 100 Australian shares (by market capitalisation) on the ASX, which are screened for high dividend and franking outcomes based upon expected future gross dividend payments.

In general, the Securities Portfolio will provide exposure to 40 - 60 shares which will be rebalanced approximately every three months. The rebalancing (or 'harvesting') process aims to include in the portfolio the shares that are expected, within the next rebalance period, to provide the highest gross yield outcomes. In order to increase security diversification, HVST additionally holds an allocation to broad sharemarket exposures.
